CUSTOM LEATHER

Finest Quality Leather

2026 Collection

Artisanet : A Story of Adventure and Craftsmanship

In 2000, during a journey to India, a defining encounter took place with a rich artisanal heritage, inspiring talent, and an age-old leather culture. From this discovery emerged a workshop in Kanpur and the birth of Artisanet—a refined leather goods brand driven by meaning and authenticity.

Over the years, collaborations and diverse influences have shaped the brand's identity. Each collection comes to life through meticulous craftsmanship, blending elegance, creativity, and uncompromising quality standards.

In 2015, Artisanet expanded its horizons with a line of high-end leather promotional items, combining practicality, durability, and aesthetics while remaining true to its founding values.

In 2020, the brand entered a new phase by strengthening its digital presence, reaffirming its commitment to bridging tradition and modernity without ever compromising authenticity or artisanal excellence.

Today, Artisanet continues to offer unique, long-lasting creations designed to accompany everyday life and stand the test of time.

A Noble Material in the Service of Your Clients

First and foremost, leather has a history—often forgotten, yet leatherworking represents one of humanity's earliest forms of recycling.

As a natural material, genuine leather breathes, adapts, and shapes itself through use, becoming an extension of your style and personality. Its superior quality is undeniable, offering an unmatched tactile feel and a level of sophistication that sets it apart from any imitation.

Unlike alternatives such as vegan faux leather (as, from a legal standpoint, leather can only be of animal origin—using the term "leather" otherwise is considered misleading), genuine leather offers incomparable longevity. It grows more beautiful over time, developing a unique patina that tells the story of its owner.

Vegan faux leather, being merely a combination of plant-based materials and plastic, lacks warmth, flexibility, and durability, and cannot replicate the richness of tones or the natural feel of genuine leather.

Our commitment to authenticity is reflected in every piece we create, offering a unique and timeless experience to those who seek excellence.

The Best Pricing for You

At Artisanet, we are proud to offer exceptional leathers, carefully selected in our own workshop in India, at Price $s that are truly competitive.

Our leather pricing has earned us the trust and loyalty of well-known brands such as Nature & Découvertes. Thanks to our ability to maintain competitive costs without compromising on quality, we have become the preferred choice of discerning connoisseurs.

Every Artisanet product is the result of artisanal craftsmanship combined with a rigorous selection of leathers carried out with our local partners in India. This blend of traditional expertise and innovation allows us to offer high-quality items at accessible Price $s.

CSR: A Genuine Commitment

For nearly 25 years, Artisanet has carried in its DNA the commitment to designing products that are meaningful—both in what they are and in how they are made.

We strictly prohibit the use of imitation leather derived from plastic-based products, choosing instead to manufacture exclusively with genuine leather.

Our clients encourage us to go even further in this direction. Organizations such as the French National Monuments and the retail brand Nature & Découvertes require products that exceed European REACH standards, notably by asking us to work exclusively with vegetable-tanned leather.

Our products are therefore regularly tested by independent organizations such as Bureau Veritas.

Whenever possible, we rely on maritime transport and on the recycling of materials—particularly cardboard packaging—in order to reduce our carbon footprint.

From a human perspective, we uphold a rare policy of transparency regarding working conditions, which we are able to guarantee since all of our leather goods are produced in our own workshop in Kanpur, India, by our own teams. Client inspection visits, even unannounced ones, are always welcome.

Starting this year, Artisanet will be certified SEDEX, attesting to our ethical practices in labor standards, health and safety, and responsible sourcing, as well as ISO 9001:2015, which validates the quality management and continuous improvement of our manufacturing processes. These certifications further confirm our genuine and long-standing commitment to corporate social responsibility.

TREK &
NATURE

Trek & Nature,
An Artisanet Brand

Canvas / Leather, Our Specialty

For several years, we have developed a number of leather goods combining canvas and leather for Nature & Découvertes.

This blend of materials gives our products exceptional durability along with a youthful, timeless aesthetic.

In 2025, Artisanet created the Trek & Nature brand to offer a complete range of mixed-material designs.

We are proud to see it sold by such a respected retailer, known for its high standards in quality and environmental responsibility. This partnership is a true mark of trust and recognition for our commitment to delivering outstanding products.

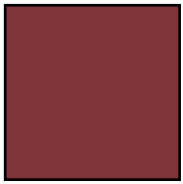

What Is Canvas?

Cotton canvas is an extremely durable plain-weave fabric used in the production of bags, aprons, and other items where strength is essential.

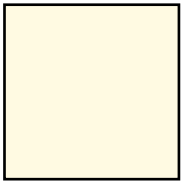

It comes in a variety of weaves and weights, offering a wide range of options for different uses and styles, and it can be waxed to provide increased water resistance.

Branding & Customization

We create and customize high-end leather goods with an uncompromising commitment to craftsmanship, flexibility, and quality.

Every project is designed to reflect your brand's identity through refined details and responsible materials.

Our strengths:

Complimentary branding: marking fees are fully waived, with only a one-time tooling fee of $80

Full customization: size, materials, stitching, and finishes tailored to your specifications

Advanced color options: Pantone color matching available (+30%) and custom branded linings (+5%)

Versatile stamping techniques: embossing or debossing, with or without color

Vegetable-tanned leather: selected for its durability, authenticity, and timeless character

Each piece is crafted to combine elegance, durability, and meaning—designed to stand the test of time..
